

# Holocaust Memorial Day 2023

Holocaust Memorial Day is an opportunity for us to come together learn, share and remember the Holocaust and genocides that followed in Rwanda, Bosnia, Darfur and Cambodia.

As well as remarks from MPs and local councillors, our 2023 event will include a presentation from Ros Gelbart, telling her father David Herman's story of surviving several Nazi labour camps.

There will also be music from the World Harmony Orchestra, whose musicians include refugees from around the world.
